Notice to householder

- 1 Where box W has been ticked a non-condensing boiler may be installed before 01 April 2007
- 2 Where box X is ticked, a like-for-like replacement boiler is reasonable.
- 3 Where Box Y has been ticked or box Z has been ticked and the assessment score in section 13 exceeds 1000, this document may be used as evidence that installation of a condensing boiler has been assessed as impractical or uneconomic. Nevertheless you may choose to exceed the Building regulations requirement if a suitable installation option can be found. Condensing boilers are more efficient and therefore save on fuel costs and cause less harm to the environment. You may be eligible for a grant that defrays some of the additional costs - contact your local energy efficiency advice centre, or the energy efficiency help line of your gas or Electricity supplier (phone number on back of bill).
- 4 You should retain this form. It may be required when you sell your home.
